LETTER TO THE EDITOR ABORTION AND PAGANISM

Donald R. Fox

Ancient people fought abortion.

Civilization took a giant step backward to paganism 30 years ago, Roe vs. Wade.

Early Christians (pre-denominational Christianity) fought the good fight against many that wanted to stop its growth. One of their greatest enemies was heathenism – paganism. Christian writer in the early days of Christianity condemned ungodly practices that were common among the heathens. These writings are preserved and can be read today.

I will home in on the heathen’s greatest sin: infanticide and abortion.

“Think you that it can be possible for so tender, so little a body to receive those fatal wounds; for any one to shed, pour forth, and drain that new blood of a youngling? No one can believe this, except one who can dare to do it. And I see that you at one time exposed your begotten children to wild beasts and to birds; at another, that you crush them when strangled with a miserable kind of death. There are some women who, by drinking medical preparations, extinguish the source of the future man in their bowels, thus commit a parricide (murder) before they bring forth…” (The Octavius of Minucius Felix, 210 AD, Vol. 4, page 192, Anti-Nicene Fathers)

Are we not in the same boat as the pagans some 2,000 years ago? We are seeing the same great sin in our beloved America.

Take time to read about the liberal” Hollywood stars” and what they have to say about abortion rights. I wonder if the elite “stars” know they practice heathenism?

Now we are in the 21st Century and many are acting like heathens of old. God help us!
